PRESIDENT'S REPORT

I would like to thank everyone who is actively engaged in a Shared Governance committee. I realize at times that it may seem as though all is lost or no one cares, but let me reassure you that that is not the case.

It's interesting in our daily lives how we choose to respond or not respond to certain situations. A simple forward step can ultimately change our course of action for the good. However, many times we choose to stay dormant and take no action.

I've learned in my walk that the biggest road block in taking action is the little voice in my head – the little chatterbox that stops us from doing great things and propelling us forward, by saying things such as:

"Do I have enough experience?" "What if I'm rejected?" "What if I fail?" "Am I good enough?" all this does is trigger/fosters fear and feed our subconscious rendering that little voice.

I'm here to tell you, that as a Classified Employee you are an achiever, an over comer, and that by maintaining a consistent PMA (positive mental attitude) the little "chatterbox" will be dethroned. Remember this "Great achievements require great risk."

I leave you with an African Proverb: "If there is no enemy within, the enemy outside can do us no harm."
